THE EL4DEV PROGRAM EXPLICITLY

The EL4DEV program is a MASSIVE, PARTICIPATORY and TRANSCONTINENTAL SOCIETAL initiative of PLURIDISCIPLINARY ENGINEERING

EL4DEV is based on the Creation and Operation of networks (networkcentrism) and then works on the conceptualization of a large set of:

- *Innovative operational tools,*
- *Local and transnational transformative development projects,*
- *Multilateral, transnational and decentralized cooperation events*
- *Experimental educational cities that are models*
- *Highly participatory and constructive media*

THE EL4DEV PROGRAM EXPLICITLY

The solutions of the EL4DEV program are 100% Interconnected, Complementary, Educational, Effective and Positive.

They are the building blocks of a powerful process of Societal Transformation and Change Management.

The objective: a rewriting of all current socio-economic models then the initialization and massive dissemination of a new philosophical culture centered on:

ethics, empathy, exchange, sharing, mutual aid and total respect for all forms of life.

The challenge: the global reunification of peoples and the collective construction of a better world

"OUR SOCIETIES ARE ONLY SOCIAL CONSTRUCTIONS.
THEY ONLY EXIST BY TACIT AGREEMENTS."

"EL4DEV IS FIRST OF ALL AN IDEA, A VISION, A CONCEPT, A PRINCIPLE.

IT IS THEN A QUESTION OF A PHILOSOPHICAL AND CULTURAL MOVEMENT, OF A PROJECT OF SOCIETY.

FINALLY, IT CAN BE DEFINED AS A PROCESS, AN ENFORCEMENT MECHANISM, A MATRIX, A SELF-REGULATORY FRAMEWORK OF CIVIL SOCIETY, A NEW KIND OF SOCIAL CONTRACT."

"CHANGE WILL HAPPEN BY PROCESS
AND BY THE WILL OF ALL."

EL4Dev

My job is to carry out multidisciplinary systems engineering applied to technology, environment, society, diplomacy and geopolitics so that the different peoples of the world gradually gain in wisdom, in mutual understanding, in autonomy, in sovereignty and in dignity and then finally activate in a collaborative way in the co-construction of a better world.
